# RAHUL DAS

## Full Stack Developer

rahulcodepython@gmail.com | +91 9775150082 | Ashoknagar, West Bengal, India

rahulcodepython.in | github.com/rahulcodepython | linkedin.com/in/rahulcodepython

## SUMMARY

Full stack developer with real-world experience taking products from idea to production for a startup and freelance clients. Building live products for real customers taught me to own features end to end, turn unclear requirements into reliable software and ship fast without cutting corners. I'm looking for a team where I can take ownership from day one and deliver work that measurably moves the business forward.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages** | TypeScript, JavaScript, Golang, Python |
| **Frontend** | React.js, Next.js, React Native, Tailwind CSS, Shadcn UI, React Query, Zustand, HTML5, CSS3 |
| **Backend** | Node.js, NestJS, Express.js, Fiber, Django, Django REST Framework, Flask, Socket.io, REST APIs |
| **Database & BaaS** | PostgreSQL, MongoDB, SQLite, Prisma, Raw SQL, Supabase, Firebase |
| **DevOps & Cloud** | Docker, Git, GitHub, CI/CD, Linux, Nginx, Cloudflare, Vercel, Netlify, DigitalOcean, Railway |
| **AI Tools** | Claude, Gemini, DeepSeek, v0, Stitch |

## EXPERIENCE

**Freelance Full Stack Developer | Gentik** (Remote) — Oct 2026 - Present

- Building **Gendemy**, Gentik's main product: institute management software for batches, classes, attendance, fees and student progress.
- Built the entire application end to end, from database design to the user interface, with separate apps for admins, faculty and students.
- Developed the backend in **Golang** on **PostgreSQL**, and a fast, responsive frontend with **Next.js** and **React**.

**Full Stack Developer Intern | Zoraviks Technologies** (Hybrid) — Jul 2025 - Present

- Build and maintain features across the frontend and backend of **fotopick.in**, Zoraviks' main product.
- Built the website for Orchid Photography, a client project of Zoraviks.
- Developed APIs with **NestJS** and **PostgreSQL**, and interfaces with **Next.js** and **React**.

**Full Stack Web Developer | Grasp Gross** — May 2023 - Jun 2024

- Developed a dynamic web platform end to end with **Next.js** and **Django**, working with cross-functional teams to turn complex requirements into practical solutions.

## PROJECTS

**ppm: Python Project Manager** | Go, Python, CLI, uv — github.com/rahulcodepython/PPM

- Open source CLI that gives Python the workflow npm gives JavaScript, in one small binary.
- One **ppm.yml** for dependencies and scripts; commands always run inside the project's virtualenv.

**Notes Sharing** | Next.js, React, Google Drive API, Google OAuth — notes.rahulcodepython.in

- Lets students create class communities, upload notes of any file type and share them with classmates in one place.
- Files stay in each student's own Google Drive, with Google sign-in and no extra accounts.

**MyMoney** | React Native, Expo, Android — mymoney.rahulcodepython.in

- Offline-first personal finance app: one double-entry ledger for accounts, budgets, debts and autopay, 100% on-device.
- Instant backwards balance calculation and peer-to-peer debt graphs; shipped as a downloadable Android APK.

## EDUCATION

**Master of Computer Application (MCA) | Brainware University** — 2026 - 2028

Pursuing. Software engineering, system design and modern application development.

**Bachelor of Computer Application (BCA) | Brainware University** — 2023 - 2026

CGPA 8.9/10. Second position in a coding competition; volunteered at the college tech fest.

**Higher Secondary (Science) | Kalyangarh Vidyamandir (H.S)** — 2021 - 2023

82%. School ranker in Computer Science.

## LANGUAGES & INTERESTS

**Languages:** Bengali, English, Hindi **Interests:** Chess (inter-school champion), AI tools, open source
